Subject to the terms and conditions of this Agreement, Abest agrees to sell and deliver, and Customer agrees to purchase and accept the quantity of renewable electricity, as estimated by Abest, necessary to meet Customer's requirements based upon consumption data obtained by Abest or the delivery schedule of the Local Distribution Utility (the "LDC"). The amount of electricity supplied under this Agreement is subject to change based upon data reflecting Customer's consumption obtained by Abest or the LDC's delivery schedule. The LDC will continue to deliver the electricity supplied by Abest.

2. Term. For Renewable Energy Product this Agreement shall commence as of the date Customer's notice regarding the change of Customer's provider to Abest is deemed effective by the LDC and shall continue for one (1) month thereafter (the "Initial Term"). (the "Renewal Term").

3. Pricing, Billing, and Termination. Unless otherwise agreed to in writing, the price for all renewable electricity sold under this Agreement shall be a variable which shall each month reflect the cost of renewable electricity obtained from all sources (including energy, capacity, settlement, ancillaries), related transmission and distribution charges and other market-related factors, plus all applicable taxes, fees, charges or other assessments and Abest's costs, expenses and margins. Abest may assign and sell Customer accounts receivable to the LDC. In the event of failure to remit payment when due by a residential customer, Abest may terminate commodity service and seek suspension of distribution service in conformance with the Home Energy Fair Practices Act ("HEFPA").

4. 50% Renewable Energy Program. Your electricity usage is matched by the generation of energy from renewable resources by retiring renewable energy certificates (RECs). For the purpose of this agreement, RECs will be purchased and retired to satisfy the percentage of renewable generation guaranteed by this agreement. The renewable mix provided under this agreement must be at least 50% greater than the applicable Renewable Energy Standard (RES) obligation for the current year. In order to satisfy the terms of this contract, the minimum renewable requirement will be satisfied by 1 or more of the following: (1) by purchasing RECs from eligible renewable generators through NYGATS; (2) by purchasing Tier 1 RECs from NYSERDA; (3) by procuring RECs from eligible renewable generators through bilateral contracts; (4) by making Alternative Compliance Payments (ACP) to NYSERDA; or (5) by entering into bundled energy and REC purchase agreements with eligible renewable generators.
